Heating issues--Fr. talked to Tally about heating issues. He reported that Crosby is going to give us a contract for all the preventative maintenance tomorrow or Wed. and will do their own assessment of the boilers. Lena and Fr.'s offices not getting heat. He stated unit installed on roof for A/C can also provide heat and A/C for all office areas and to do the hookup for probably around \$1200-\$1300. If we do that, boiler would only be used for downstairs and the church only with potential for cost savings. Lack of heat in Narthex discussed.
